U.S. House IA-03 (#IA03): voting history of poll respondents

Polls conducted by GOTV Polling. Paid for and Authorized by Results PAC.

Sample: 332 completed respondents answered the U.S. House IA-03 question (published topline n). Margin of error plus or minus 6.3 points at 95% confidence (including the weighting design effect). Weighted to recalled 2024 presidential vote, the same method as the published toplines. Voting history comes from the voter file record matched to each respondent (335 of 335 matched). All numbers are polling aggregates. Any group with fewer than 30 respondents is held back. Subgroup margins of error are larger than the topline.

Published topline: Sarah Trone Garriott 49.7%, Zach Nunn 48.6%, Undecided 1.7%.

Who answered: voting history profile

Every respondent voted in the 2018, 2020, 2022 and 2024 general elections (all of the last four). These are high-turnout voters, not all registered voters, so these results describe the most reliable part of the electorate.

New vs habitual: voters who did not vote in the 2016 general (newer voters) number under 30 and are held back; everyone else is a long-run habitual voter. A new-voter comparison is not possible from this sample.

Primary participation, 2018 to 2026 (of 5):

Group	Respondents	Share
All 5 primaries	215	64%
4 of 5 primaries	83	25%
2 or 3 of 5 primaries	37	11%

2024 general, how they voted:

Group	Respondents	Share
Early, 2+ weeks out	80	24%
Early, final 2 weeks	164	49%
Election Day (no early record)	91	27%

Voter-file vote frequency score:

Group	Respondents	Share
Vote frequency 8 (highest)	215	64%
Vote frequency 7	83	25%
Vote frequency 5 to 6	37	11%

Support by voting history

Primary history:

Group	n	Sarah Trone Garriott	Zach Nunn	Undecided
All 5 primaries	214	65.5%	31.4%	3.0%
4 of 5 primaries	83	33.9%	66.1%	0.0%
2 or 3 of 5 primaries	35	22.1%	77.9%	0.0%

2024 voting method:

Group	n	Sarah Trone Garriott	Zach Nunn	Undecided
Early, 2+ weeks out	80	60.8%	39.2%	0.0%
Early, final 2 weeks	162	50.6%	46.7%	2.6%
Election Day (no early record)	90	39.8%	58.8%	1.3%

Vote frequency score:

Group	n	Sarah Trone Garriott	Zach Nunn	Undecided
Vote frequency 8 (highest)	214	65.5%	31.4%	3.0%
Vote frequency 7	83	33.9%	66.1%	0.0%
Vote frequency 5 to 6	35	22.1%	77.9%	0.0%

Party registration by primary history:

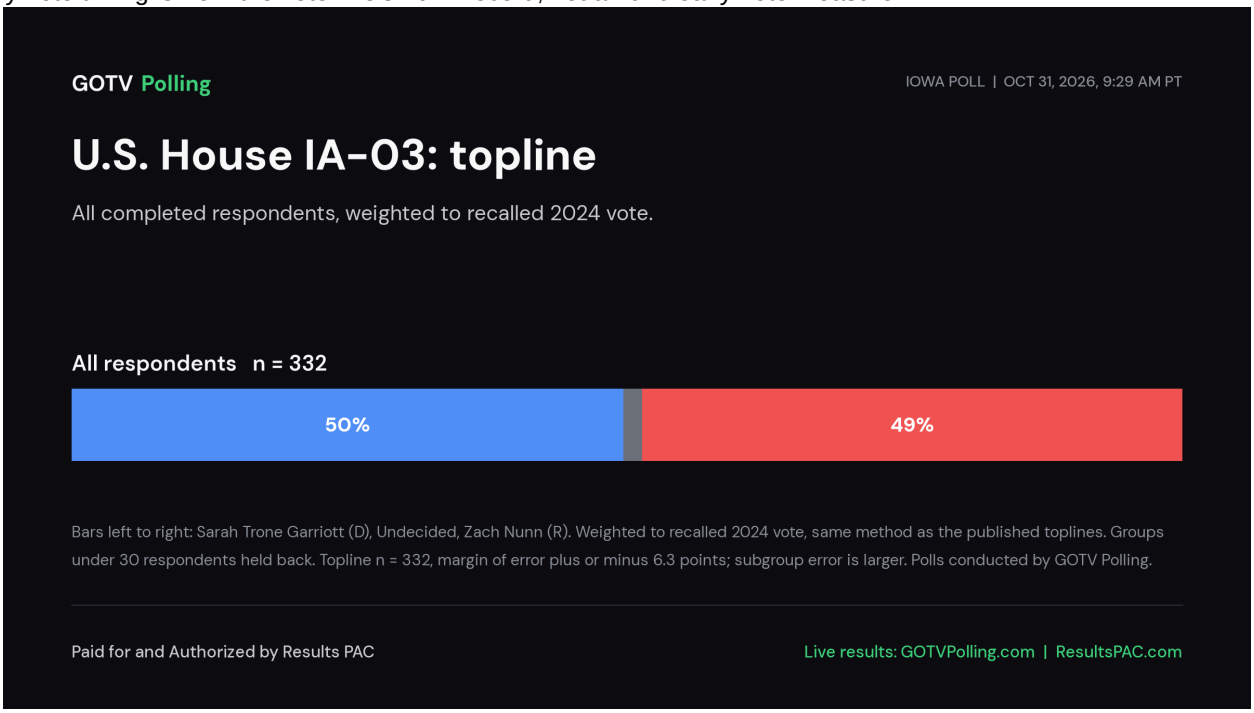

Group	n	Sarah Trone Garriott	Zach Nunn	Undecided
Republican, all 5 primaries	32	11.9%	87.0%	1.1%
Republican, fewer than 5 primaries	54	3.2%	96.8%	0.0%
Democratic, all 5 primaries	180	90.4%	5.6%	4.0%
Democratic, fewer than 5 primaries	64	88.6%	11.4%	0.0%
Other / no party, all 5 primaries	under 30	held back	held back	held back

What it means

Margin among voters in all 5 primaries: Trone Garriott +34.1; among those in 2 or 3 of 5: Nunn +55.8.
Margin among voters who voted early 2+ weeks out in 2024: Trone Garriott +21.6; among Election Day voters: Nunn +19.0.
Within each party support barely moves (Republicans 87% and 97% Nunn, Democrats 90% and 89% Trone Garriott), so the gap is mostly party mix.
Because every respondent is a high-turnout voter, read differences between voting-history groups as differences within the most reliable part of the electorate, not as a turnout model.
Party and primary history overlap strongly; differences by history group are largely party composition.

Caveats

Held back (under 30): Other / no party, all 5 primaries.
Early-vote timing is from the voter file's 2024 record, not a 2026 early-vote measure.
