U.S. House IA-04 (#IA04): voting history of poll respondents

Polls conducted by GOTV Polling. Paid for and Authorized by Results PAC.

Sample: 168 completed respondents answered the U.S. House IA-04 question (published topline n). Margin of error plus or minus 7.6 points at 95% confidence. UNWEIGHTED, matching the published topline for this district (no weighting targets). Voting history comes from the voter file record matched to each respondent (168 of 168 matched). All numbers are polling aggregates. Any group with fewer than 30 respondents is held back. Subgroup margins of error are larger than the topline.

Published topline: Chris McGowan 61.3%, Undecided 3.0%, Dave Dawson 35.7%.

Who answered: voting history profile

Every respondent voted in the 2018, 2020, 2022 and 2024 general elections (all of the last four). These are high-turnout voters, not all registered voters, so these results describe the most reliable part of the electorate.

New vs habitual: voters who did not vote in the 2016 general (newer voters) number under 30 and are held back; everyone else is a long-run habitual voter. A new-voter comparison is not possible from this sample.

Primary participation, 2018 to 2026 (of 5):

Group	Respondents	Share
All 5 primaries	96	57%
4 of 5 primaries	42	25%
2 or 3 of 5 primaries	30	18%

2024 general, how they voted:

Group	Respondents	Share
Early, 2+ weeks out	52	31%
Early, final 2 weeks	55	33%
Election Day (no early record)	61	36%

Voter-file vote frequency score:

Group	Respondents	Share
Vote frequency 8 (highest)	96	57%
Vote frequency 7	42	25%
Vote frequency 5 to 6	30	18%

Support by voting history

Held back for this district: subgroup support figures are too thin to publish (unweighted, n = 168). Only the published topline is reported.

What it means

Because every respondent is a high-turnout voter, read differences between voting-history groups as differences within the most reliable part of the electorate, not as a turnout model.

Party and primary history overlap strongly; differences by history group are largely party composition.

Caveats

Held back (under 30): Democratic, fewer than 5 primaries, Other / no party, all 5 primaries.

Early-vote timing is from the voter file's 2024 record, not a 2026 early-vote measure.
